- JP Bioenergy (34 members)
- JP Energy Storage (33)
- JP Concentrated Solar Power (27)
- JP Geothermal Energy (33)
- JP Nuclear Materials (47)
- JP Shale Gas (26)
- JP Smart Grids (40)

KIT cooperation activities

- EASE/EERA Roadmap (JP Energy Storage)
- Vision Paper (JP Nuclear Materials)
- SET-Plan – TWG 7 (e-mobility)
- TWG 10 (safety in nuclear energy)
- Mission Innovation – IC7 (heating/cooling)
- ETIP SNET – (Smart Networks for Energy Transition)
- SNETP (Sustainable Nuclear Energy Technology Platform)
- GEMMA project 2017-2021 (Generation IV Materials Maturity)
- M4F project 2017-2021 (Modeling for Fusion & Fission Materials)
- SmILES project 2017-2020 (Multi Energy Systems)
- CLEAN ENERGY proposal coordination for FET-Flagship
- BATTERY2030+ proposal participation for FET-Flagship

MISSION INNOVATION
Accelerating the Clean Energy Revolution
